

What are the features of LG Commercial TV? SoftAP

SoftAP(Soft Access Point)

Soft AP means software enabled Access Point.

This “virtual” Wi-Fi feature executes by software working on the device to create a wireless hotspot.

SoftAP enables the TV to function as a 2.4 GHz band (Wi-Fi) wireless access point.

[Connecting the other devices via TV embedded Soft AP]

LG Commercial TV allows you to share secured content sharing between TV and their own devices.
