

What are the features of LG Commercial TV? “ USB Cloning ”

The USB Cloning feature allows you to simply copy the TV settings onto all TVs using a USB stick, a process that is fully automated to save time without having to set each TV one by one.

Once users copy data to a USB device in one display, it can be easily distributed to the other displays through a USB plug-in.

Cloning items

- Installation Menu settings
- Channel Information
- TV Setup menu settings (Audio / Picture etc.)
