

What are the features of LG Commercial TV? Multi IR

Multi IR

Multi IR function eliminates the remote control signal interference between TVs in multiple dwelling rooms. This system will work using the same LG TV model.

You can control a designated TV exclusively with the LG Multi IR remote control unit. In areas where there are multiple TVs installed, such as in large lobbies, sports pubs, each remote can be assigned to each TV with no signal interference from other remotes. Up to nine TV can use this function simultaneously.
