

What are the features of LG SuperSign TV?

Embedded Content & Group Management

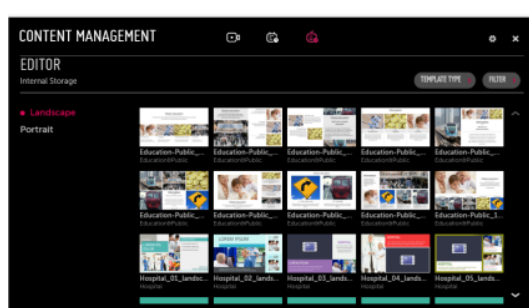

Embedded Content & Group Management

The embedded Content and Group Management System allows you to edit and play content, schedule playlists and groups. It also allows your business to control your signage via remote control, mouse and mobile phone without the use of separate PC or software, making content management much easier and more user-friendly.

1. Instantly edit content on TV embedded Content Manager via remote controller and keyboard or via Chrome browser
