

What are the features of LG Commercial TV?

Compatibility with AV Control Systems

Compatibility with AV Control Systems

LG Commercial TV has been certified Crestron Connected®, proving that it has a higher level of compatibility with professional AV controls. This results in seamless integration and automated control, boosting business management efficiency.

Using Crestron Connected certified LG Commercial TV will allow you to :

- Provide effortless and fully integrated A/V and IT environments
- Define the perfect meeting room or public space environment that can be set up in advance such as lighting, displays and AV equipment onsite or offsite.

* Crestron Connected® may vary by models.
